

The name that carries the weight...

# Blue Euro Stacking Containers

Totebox are now stocking solid blue euro containers in a range of sizes from 15L to 45L.

Euro (European standard size) containers are designed to fit on standard European size 1200 x 800mm and 800 x 600mm wooden and plastic pallets, as well as standard 1200 x 1000mm pallets. Euro containers are modular inter-stacking containers with vertical sides for maximum internal volume.

Stackable boxes are useful for many applications and commonly used in the catering industry (they are food grade), engineering trade (antistatic containers protect electrical components) and in bars and restaurants.

Our Euro stacking boxes can be tailored to suit your requirements with lids, inner dividers, label clips and personalised print. Euro sized dollies are available for easy transportation of containers.
